EXPERIENCE

Freelance WordPress developer

(September 2014-Present)

Built websites using a multitude of different themes, both from scratch and fixing things. Have downloaded databases, changed configuration settings, deployed Digital Ocean Droplet, and re-uploaded, all remotely.

Escape Assist

(October 2018-June 2019)

Intern developer, created new website, connected phones with Twilio, set up phone call forwarding systems with specific voice messages, and built an escape room leader board using Angular, HTML and CSS.

TIPPED

(October 2017-June 2018)

(<https://tipped.io>)

I created the website, designed digital marketing campaigns, A/B tested certain marketing techniques, spoke with executives for partnerships.

The Caelus Camera

(August 2016-October 2017)

Created content for a multitude of different startups to use in marketing campaigns.
